Amendments to the Specification:

In paragraph [0032]:

[0032] On the other hand, to the extent an office appointment is warranted, which will likely be the majority of the instances where care is sought, a determination is made as to whether or not the purpose for the office visit is for the treatment [[is]] for a chronic condition 24, which as discussed above may include diseases such as cardio vascular disease, diabetes, asthma and the like, or whether or not the purpose of the office visit is for the treatment of an acute or non-chronic condition such as an injury, infection, or any other type of disease not requiring on-going evaluation and treatment.
